

REMARKS

This case has been carefully reviewed and analyzed in view of the Official Action dated 7 December 2004. Responsive to the objections made in the Official Action, Claims 1 and 2 have been amended to correct the language thereof.

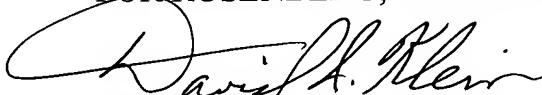

In the Official Action, the Examiner objected to Claim 1 because there were several terms that lacked a proper antecedent basis.

Accordingly, Claim 1 was amended to correct the language thereof. In addition to the antecedent basis problems identified in Claim 1, there were a number of other informalities found therein and in Claim 2. Accordingly, Claim 1 and Claim 2 were further amended to correct those informalities found therein. It is believed that the amendment to the claims corrected grammatical, idiomatic and translational errors, and did not change the substance of the claims.

It is now believed that the subject Patent Application has been placed in condition for allowance, and such action is respectfully requested.

Respectfully submitted,
